**The school's virtual Opening Evening will launch on January 4th 2021 from 7pm!**

A lot of hard work by staff and pupils has went into creating a virtual open evening experience to showcase all the best bits of Edmund Rice College for prospective pupils who will start year 8 next September. Due to current situation we can't have our normal Open Evening but hopefully you will be able to get some sort of glimpse of what life is like in the school.

## **NEW BUILDINGS!**

Edmund Rice College is looking a lot different these days as we add new buildings to the school.

Due to the increase in numbers in recent years we have had to extend our canteen and provide a new science lab as well as a brand new sixth form study.

Both new builds will be good to go in January 2020.
